10<sup>th</sup> February 2020

Dear Parent/Carer,

All S2 pupils will be attending a "Step into STEM" event on Wednesday 19<sup>th</sup> February at West Lothian College. The aim is to provide secondary school pupils with a wider understanding of Science and Engineering and potential career opportunities in those fields, whilst inspiring them to continue in their STEM studies.

'Step Into STEM' is a showcase and celebration of STEM - science, technology, engineering and maths - for young people in West Lothian. Pupils will hear from two speakers, attend two different workshops and then have the opportunity to visit the interactive exhibition. This event gives young people a fun opportunity to gain knowledge and experience of this dynamic industry. The stalls will be interactive and engaging for pupils with gadgets, competitions, challenges, quizzes, virtual reality, videos and other activities.

We will travel to and from the event by minibus. We will leave around 9am and return around 2.30pm. Pupils will be provided with a packed lunch if they normally order a school lunch. Please feel free to provide your child with a home packed lunch if you prefer. S2 tutor teachers will accompany this event and pupils will remain with Cedarbank staff at all times throughout the day.

Please do not hesitate to contact me should you have any questions or concerns about this event.

Yours sincerely,

Nicola da Silva
