

**Work for Class 2B is on Pages 1-4**

**Work for Class 2A is on Pages 5-7**

Watch this You tube video clip from 3 mins 40 to the end. Then choose **two** tasks to do:

<https://www.youtube.com/watch?v=12voSEz-l7E>

**If you are unable to watch the clip, do not do Task 4.**

### **Task 1**

**a.** If there is a medical emergency at home, what number should you dial for help?

---

**b.** When the emergency services answer the phone, they will ask you some questions. Write down 2 questions that they will ask:

1 

---

---

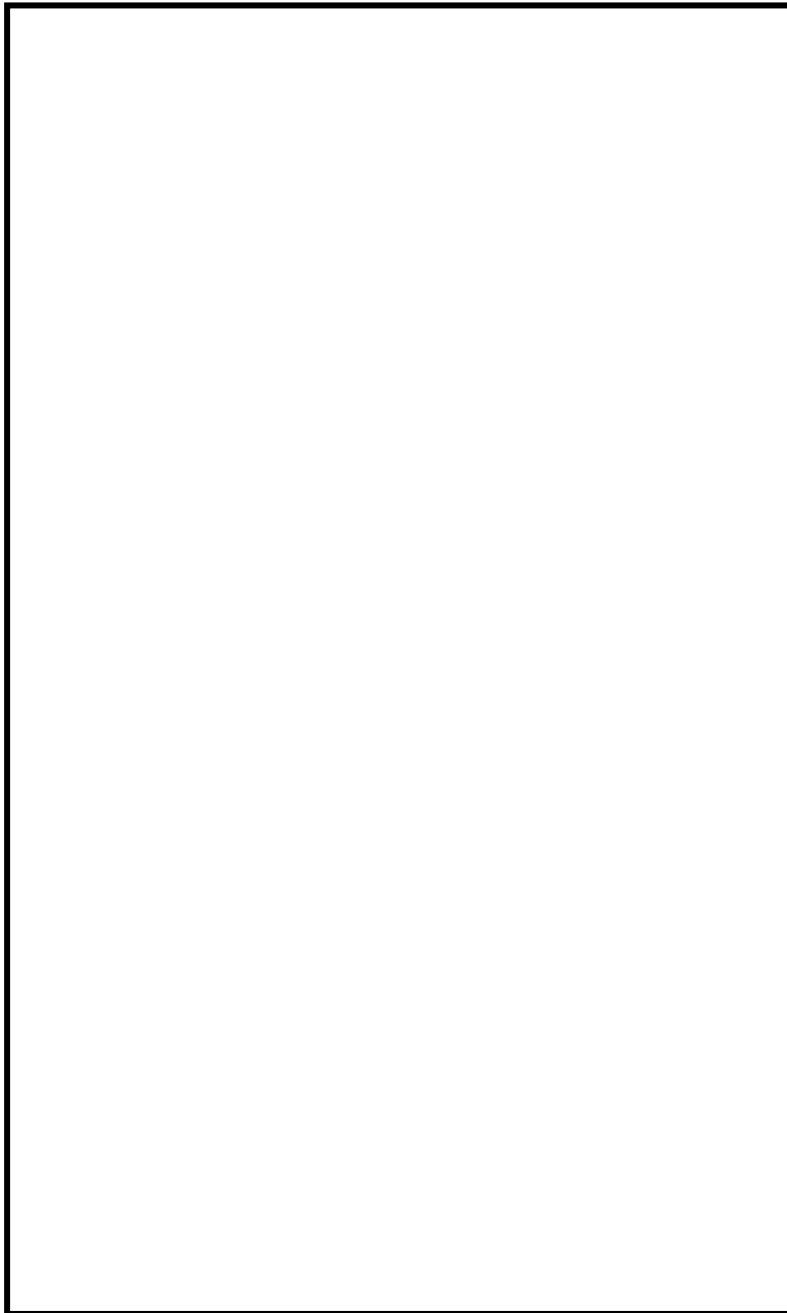

2 

---

---

## **Task 2**

If we have to use someone else's mobile phone in an emergency, we should scroll up and click the word "Emergency" on the bottom left of the screen. Draw a picture of the phone screen below:

### Task 3

4. There are other emergency services. Write a short explanation to describe what the Fire Service does.

The Fire service

---

---

---

The Police Service is used to help stop crime.  
Draw a police car in the box.

## Task 4

5. The whole world is mapped into areas of 3 metres squared by an app called “what3words”. Each 3 metre squared area is given 3 words as a unique “name” which maps its location.

**Challenge:** Download the app and find the 3 random words for any place of your choice. Write the place and the 3 random words below:

Place:

3 random words:

## Work for Class 2A

Watch this video from 2 minutes 30 until the end and do Task 1, 2 OR 3.

<https://www.youtube.com/watch?v=uZMuULZuLH8>

**Task 1** Make a poster to show what **ABC** stands for in a first aid situation where a casualty needs help. Use the information below to help you.

**A** – Assess for danger

Check if the casualty is Alert/Awake

Clear the casualty's Airway.

**B** – 2 breaths every 10 seconds.

**C** - Circulation- check if they are bleeding.

**Task 2** Read the instructions about how to help a casualty who is on the floor and not moving.

Tick **True** or **False**.

	TRUE	FALSE
Ask their name to see if they reply.		
Give them a good shake.		
Tap their shoulder gently.		
Keep talking to the casualty.		
Never shout for help.		
You should check if the casualty is breathing.		

**Task 3** Fill in the blanks. Use the help box at the bottom of this page if you are stuck.

1. To clear the casualty's airway, put one hand on their forehead and two fingers of the other hand on their \_\_\_\_\_ and gently tilt their head \_\_\_\_\_.
2. You can check if the casualty is breathing by putting your ear to their \_\_\_\_\_ to listen and \_\_\_\_\_ their breaths. You can also look at their \_\_\_\_\_ to see if it is moving up and \_\_\_\_\_.
3. If they are not breathing you should \_\_\_\_\_ into their mouth. You should give them \_\_\_\_\_ breaths every \_\_\_\_\_ seconds.
4. When you check if the casualty is bleeding, you should try to wear \_\_\_\_\_.  
If you don't have gloves, you should not \_\_\_\_\_ any blood.

<b>ten</b>	<b>tummy</b>	<b>down</b>
<b>gloves</b>	<b>mouth</b>	<b>touch</b>
<b>backwards</b>	<b>feel</b>	<b>chin</b>
<b>breathe</b>	<b>two</b>
