

25<sup>th</sup> August 2020

Dear Parent/Carer,

**Cedarbank School - Responsible Usage Agreement for Digital Technologies**

At Cedarbank School we use a range of digital technologies across our curriculum to both support and enhance our pupils' learning experiences. In order to ensure that these opportunities are maximised, all of our pupils will have access to a netbook at all times during the school day. As always, it is of utmost importance to us that our pupils' understand how to conduct themselves safely and responsibly online. Therefore, it is necessary for all pupils to enter into a responsible usage agreement for the use of digital technologies in school. The agreement is a set of rules, that each class has had input in producing and we, as a school, believe support us in navigating our digital learning safely.

Please read through these rules at home with your young person. It is important that all of our learners understand the rules and that they are to be followed at all times, when using digital technologies at school. This should be signed by both your young person and you as their parent/carer and returned to school by Tuesday 1<sup>st</sup> of September. The Responsible Usage Agreement can also be found on our school website, for future reference.

Thank you for your support. We look forward to continuing to share our progress of our digital learning journey with you.

Nerissa Davies

Digital Technology Development Post Holder

**Award 2010**
