

22nd October 2020

Dear Parents and Carers,

We are writing to inform you that we are excited to deliver the Young STEM Leader Programme this academic year for all S1 – S3 students. We will be launching this programme next week to coincide with the Young STEM Leader week. This is a national event and will run from Monday 26th to Friday 30th October.

This is a programme that has been developed by Scottish Schools Education Research Centre (SSERC) to encourage interest in Science, Technology, Engineering and Maths (STEM) careers. In addition this programme also allows students to progressively develop their skills within these areas.

As part of this programme, each student will have an online account. They only will use this account to update their record book and share their work with their Tutor Assessor. Our Tutor Assessor is a member of staff at Cedarbank School, Ms Belinda Cook. All appropriate internet safety and data considerations have been met by SSERC.

If you would like information on the programme please go to www.youngstemleader.scot or please do not hesitate to contact the School.

Best wishes,

Ms B Cook
Development Post Holder for STEM and Outdoor Learning

Award 2010
