Head Teacher's News

Dear Parents/ Carers,

I am delighted to share with you the Cedarbank December 2024 Newsletter. This publication showcases the experiences and achievements of our young people through the first term of the 2024/25 school session.

We have had an incredibly busy first term brought to a close through our winter calendar experiences. Our learners have experienced winter markets, carol singing, talent shows, cinema visits not to mention the Christmas jumper showcases! Our recent Winter Fayre and carol singing at Livingston Designer Outlet raised more than £2500 for the school which is a huge sum of money and will really help the school with the nice to haves that really make a difference to our young people. Thank you to our Parent Council who have been instrumental in securing additional funding to make many of these experiences a reality.

A new sensory room was installed recently using Pupil Equity Funding (PEF) and we look forward to this being part of our curricular resources from January onwards. Our pupil council have recently voted on using part of our remaining PEF on improving the school library and this is an area of development for the New Year as we look to improve our reading culture.

We also consulted our learners on our current lunchtimes and how they could be improved. Pupils who felt things could be improved stated they would like more lunchtime clubs and our wonderful staff team (and senior pupils) have responded with an amazing mix of clubs for different age groups, many of which will start in January if not already underway.

Hub 9 was launched in September as a space in the school for our multi-agency partners to be based and to work with our young people. This new space brings together our PTs with all visiting professionals and has been a positive addition to the school.

Thank you for your continued support and I wish you a wonderful Christmas and all the very best for 2025.

Confident Individuals

At Cedarbank we strive to ensure our pupils gain the knowledge, skills and attributes needed for life in the 21st century by developing them through the four capacities of Curriculum for Excellence.

Confident Individuals have a sense of physical, mental and emotional well-being, self respect, and secure values and beliefs, while being able to: use literacy, communication and numeracy skills, use technology for learning, and learn independently and as part of a group.

Learning with the Community and Celebrating Wider Achievements

Learning with our community allows us to deepen the links made within subjects, helps with our Delivering the Young Workforce agenda, and include parents/carers and partner organisations in our learning. Whether it is utilising provisions off site or bringing partners in to the school, we welcome the opportunities provided for our community and hope we broaden the understanding of the needs of our pupils to others.

We also love to celebrate the successes of our pupils and staff outside of the school day, whether that is a sporting achievement, an award, or just learning in a different context at home.
